

# Your Educational Experience

Vancouver, British Columbia, Canada

---

The decision to study abroad can be very exciting. A learning experience from Canada is often viewed very positively by universities, colleges and by employers from around the world. **First Choice International Placement Inc.**<sup>TM</sup> can help you select a suitable public or private post-secondary institution or ESL school that meets your unique requirements.

We are pleased to provide the following educational support services to enhance your Canadian learning experience:

- School Pre-screening and Referral** - International students first complete an on-line questionnaire in order to determine the most appropriate type of educational institution that meets your unique interests and needs. Once this information has been received our staff make every effort to locate a school that meets your specific requirements. A short-list of schools is then forwarded to you to assist in your selection.
- Study Visa and School Application Assistance** - International students are assisted through the complicated application process required to complete a Canadian study visa and the school applications. Once you have been registered we continue to work on your behalf by confirming your arrival start date and serving as a liaison between you and the school.
- Homestay or Apartment Placement** - Depending on your preference, short-term or long-term homestay arrangements or on-campus or off-campus apartment residency is arranged on your behalf. Once again, we provide a short-list of alternatives for you to choose from.
- Airport Pick-up and Delivery** - Some students prefer to make their own transportation arrangements from the airport to their residence and then from the residence to the school. Many, however, prefer to have us arrange transportation based on their needs. If requested, our courteous drivers are available to greet you upon arrival and deliver you to the selected host family or alternative residence. We then will assist you in determining the best daily mode of transportation to your school.
- 24 Hour Emergency Assistance** - While most educational exchange experiences occur without incident there are times when emergency assistance is required. Our staff is available 24 hours each day to assist with alternative planning or conflict resolution if required.

For the best experience possible let **First Choice International Placement Inc.**<sup>TM</sup> assist you in planning and arranging your educational excursion.
